M.06007 Size: 10-12"

Flat Hacksaw Frame With Wooden Handle

M.06008

Junior Hacksaw Frame

Plastic handle with blade, small size designed for use in tight area. with a 6" hardened and tempered high carbon steel blade.

Size: 6" **M.06009**

Fret Saw Frame

The category of frame saws includes the common coping saw, as well as more traditional fret saws and bow saws, like power scroll saws, hand-powered frame saws are well-suited for making interior cutouts.

M.06010

Size: 5"

Junior Hacksaw Frame

Small size designed for use in tight area. With a 6" hardened and tempered high carbon steel blade.

Size: 6"

M.06011

Plastic Pocket Saw Frame

With comfortable plastic handle. Blade length can be adjusted to fit work area.

M.06012

Jab Saw

M.06013

Self-starting point for plunge cutting. This jab saw has unique ergonomic handle for nonslip use. Blade to handle connection is strongest in industry. Can be used for close quarter sawing. Sharpened tip for easy punching through drywall. Hardened and tempered blade for durability and professional quality.

Board Saw Aggressive Tooth

M.06014

Dynamic setting teeth
Soft ergonomic designed handle
Teeth pitch:
5points/7points/9points/12points
Available sizes: 150mm

Soft ergonomic designed handle Black Tensile Spring
ABS

Dynamic setting teeth avoids clogging while cutting
Aggressive teeth grounded on 3 edges for fast and precision cutting
Impulse hardening teeth stays sharp 6 times long-life and needs no resharpening

Nature Color Wooden Handle

Handsaw with Precision-ground tri-edge teeth. Electro-oxid hardened blade cuts on push and pull stroke. Hardwood handle angled 45° & 90° for marking.

M.06015

Size: 12"/300mm, 14"/350mm, 16"/400mm, 18"/450mm, 20"/500mm, 22"/550mm, 24"/600mm

Hand Saw

Follow these steps for cutting wood safely with a handsaw.

Measure the wood with a tape measure and mark it.
Clamp the wood to a workbench or sawhorse.
Rest a handsaw on the far edge of the outline.
Grasp the saw's handle with one hand; maintain a firm but relaxed grip.
Hold the wood steady with your other hand, keeping your hand a safe distance from the saw - this will be your guide hand.
Loop the thumb of your guide hand over the top of the wood.
Pull the saw toward you once, pressing down firmly. Pick up the saw, replace it in your original position, and pull toward you a second time.
Repeat until you have cut a notch in the wood's edge.
Level the saw slightly and continue sawing back and forth.
Press down less heavily as you come to the end of the task to avoid splintering the wood.

Ground Teeth

Retire polished durable carbon steel blade

Wooden handle

Warning: Watch your fingers! As you finish cutting, be careful not to drop the saw through onto your feet!

Dynamic setting teeth avoids clogging while cutting
Aggressive teeth grounded on 3 edges for fast and precision cutting

M.06028

Oversized, bright-drawn profiled rail features I-beam design minimizes flexing and bending common with flat bar clamps. Bright zinc rail finish prevents black marks on wood and won't ever rust. Unique, no slip-locking device with a set screw that is permanently molded into sliding arm to prevent slippage. The tighter you clamp, the tighter it holds. High-quality jaws are malleable cast-iron, precision fit to rail. Oversized, nonmarring pads protect your work, stops

dimpling. Oversized Acme thread for positive grip with minimum turns. Ergonomically designed wooden handle, comfortable fit allows maximum clamping pressure. Medium-duty, rail size: 1" x 1/4" and 600 lb. of clamping pressure. 2-1/2" depth.

Pump Clamp

CLAMP

Vises and clamps are used to hold workpieces in place during cutting or other tasks, and to hold pieces together while glue sets.

Your workbench should include a heavy-duty carpenter's vise. For specialty clamping jobs, a wide variety of clamps are available, including C-clamps, locking pliers, handscrews, web clamps, or ratchet-type clamps.

For clamping wide stock, use pipe clamps or bar clamps (oppie page). The jaws of pipe clamps are connected by a steel pipe. The distance between the jaws is limited only by the length of the pipe.

M.06035

G-Clamp

Drop forged ribbed frame, Chrome plated steel screw.

Size: 2", 3", 4", 5", 6", 8", 10"

Size: 6", 8", 10", 12", 16", 18", 24", 36", 48"

Spring Clamp

M.06042

High impact nylon and fiberglass construction, tempered steel springs, strong gripping, spring action jaws. Molded finger grip handles for a secure hold. Spring action jaws. Molded finger grip handles for a secure hold. Flexible pads off high visibility hold object in proper alignment ideal for gluing and clamp. Spring action jaws, molded finger grip handles for a secure hold. Flexible pads of high visibility hold object in proper alignment ideal for gluing and clamp.

Size: 2", 3", 4", 5", 9"

5 Pieces Carving Chisel Set

HSS chisels for long, dependable life. Proportionately long handles offer plenty of stability and control. Includes 3/8" and 3/4" spindle gouges, 1/2" round nose tool, 3/16" parting tool and 1/2" skew chisel. Each chisel measure 11-1/2" overall with 7-7/8" ash handles and brass ferrules. Wooden case.

M.06062

12 Pieces Carving Chisel Set

Robert sorby micro carving tools are manufactured to the same exacting standards as the full-size tools. Highly polished blades protect against rusting and every cutting edge is honed and beveled, ready for immediate use. Large handles are more comfortable particularly during prolonged use and solid brass ferrules contribute to form and function. Includes polished wooden case.

M.06063

12 Pieces Carving Tools

- Hardwood handles with steel ferrules.
- Handles measure 4-3/4", chisels measure 4".
- Chrome-vanadium steel chisels keep its edge longer and resist corrosion.
- Chisels are polished for a fine finish.
- Wide bolsters provide even pressure to the handles.

M.06064

Punch & Chisel Set

Cold chisels for cutting or removing metal softer than the cutting edge itself. Punches designed to put holes in metal and other materials, mark metal, drive or remove pins and rivets, and align holes in different sections of metal. Forged, heat treated and polished using only domestic high carbon tool steel.

12 Pieces Punch & Chisel Set

M.06065

Top quality heat-treated drop-forged tools come in individually organized compact vinyl tool roll.
6 Pc cold chisel: 1/2"x6-1/2", 5/8"x7", 3/4"x8", 7/8"x8", 7/8"x10", 1"x10"

M.06085

Hand Iron Plane

Manufactured from selected iron castings with the working surfaces accurately ground all over and the non working faces enamelled. The face plate is manufactured from high carbon steel hardened and tempered and precision ground all over. The moulded plastic handles are designed to give comfort and control.

M.06086
Size: 240x54mm,
245x62mm, 355x62mm

Block Plane

This low angle block plane is ideal for fine trimming ends of mouldings for perfect fits. Cast iron construction and accurate adjustments make this plane the perfect tool for on the job site or in the shop. Body measures 6-7/8" long.

Plane Size: 140mmx42mm
Cutter Width: 33mm
M.06087

Adjustable Spoke Shaves

Fully adjustable for depth of cut with twin thumbscrews. Available in fine grey iron with flat or round bottom. Precision machined bases are suitable for work on any convex or concave surface. Replacable Sheffield steel cutters. Type: Round. Concave. Width of cutter: 2. 1/8in - 54mm.

M.06088

Spoke Shaves

A smaller, lighter spokeshave available in flat or round faced patterns. Fine grey iron body painted black and with manual adjustment of the 1. 3/4in wide cutter. Type: Round.

M.06089

Hand drill

Size: 1/4", 3/8"

M.06090

Ratchet Bit Braced

Size: 10", 12"

M.06091

a Heavy Duty Caulking Gun

Chilton high performance applicator. An advanced applicator for the professional who applies sealant on a daily basis. High thrust trigger action. Patented catch plate. Case hardened rod and plate. Cradle type frame.

M.06092
Size: 9", 10"

b Caulking Gun

Iron frame. Chrome plated. Manufactured from steel platebacked enamel finished. An advanced applicator for who applies sealant on a daily basis.

M.06093
Size: 9", 10"

c Caulking Gun

Manufactured from steel plate backed enamel finished. The bar with teeth. Suitable for sausage packs and cartridges.

M.06094
Size: 9", 10"

d M.06095

Caulking Gun for Sausage Packs & Cartridges 250mm

Die-cast body with aluminium tube. Supplied with plastic plunger and application nozzles. Suitable for sausage packs and cartridges. Replacement nozzles available. Cartridge Length: 250mm

Size: 9", 11", 13", 14"

e Caulking Gun

Manufactured from heavy duty steel plate. Backed enamel finished.

M.06096
Size: 9", 11"

Caulking Gun

A small metal sealant gun which will hold the retail range of Evostiks gun applied adhesives and sealants. It will also accept other manufacturers products of similar size.

M.06097

Size: 9", 13"

Caulking Gun

M.06098

Caulk gun for professional or industrial use. Sturdy die-cast zinc alloy body but lightweight. Operator controls the extrusion rate with smooth effortless action. Quick pressure release. Barrel rotates for application around corners.

Size: 9", 10"

Heavy duty aluminium handle

Caulking Gun

Heavy duty frame and aluminium handle, for professional use.

Size: 9", 10"

M.06099

Professional Caulking Gun

M.06100

Caulk gun for professional or industrial use. Sturdy die-cast zinc alloy body but lightweight.

Operator controls the extrusion rate with smooth effortless action. Quick pressure release. Barrel rotates for application around corners.

Size: 9", 10"

Caulking Gun

Manufactured from heavy duty steel plated. Backed enamel finished.

M.06101

Size: 9", 11"

Hand Riveter

All steel construction with spring loaded handle for automatic steel ejection. Contoured handle grips with built in nose piece spanner storage. Sets rivets up to 5mm (3/16). Supplied with starter. Selection of 15 aluminium rivets.
Size: 10"

M.06102

Hand Riveter

DIY users riveter with blue enamelled pressed steel frame, chrome molybdenum steel jaws and moulded grip handles. Supplied with four nozzles to accept 2.4, 3.2, 4.0 and 4.8mm aluminium alloy blind rivets.
Size: 9-1/2", 10", 10-1/2"

M.06103

360° Rotatory Aluminium Hand Riveter

All steel construction with vinyl grip. Spring loaded handle for easy rivet loading and ejection. Head rotates 360 degrees for riveting in any angle. Handle lock for easy storage.
Size: 10-1/2"

M.06104

Bi-Directional Hand Riveter

Aluminium alloy body with PVC comfortable grip and 4pc interchangeable heads.
Size: 10"

M.06105
